# HOW WE HELP

- We have simplified the application process requiring the minimal amount of information to expedite the approval process
- Each small business owner will work directly with one of the principals of either 24 Advisor or Pharus Funding as their point of contact throughout the process until funding.
- We work with each small business owner to maximize the amount of loan they can qualify for. Why this is importance. If they adhere to the employee retention requirements the full amount of the loan will be forgiven without any tax consequences.
